2.4.14	M/s Tinna Rubber and Infrastructure Ltd., New Delhi		<ul style="list-style-type: none"> • There is an issue raised by the additional Commissioner of Custom who has sought clarification from the Ministry whether the NOC granted vide O.M No. 5-22/2010 HSMD dated 08/04/2015 to M/S Tina Rubber & Infrastructure Ltd is valid for import and utilization for its Wada plant only or it can be utilized for other plants also as mentioned as branches in IES. M/s Tina Rubber & Infrastructure Ltd has clarified that they have six plants in India at different location. It is quite often that material is not available at one location and if available many times vessel from that port is not available. If there is a shortage of material at one plant they transfer material from other plant and do stock transfer after the receipt of material. So they import material on NOC of one plant and transfer that material to the other plant. • On analyzing the above two situations, it has been observed that such kind of import is creating confusion for Custom as importer details are different form NOC details. On the other hand it gives flexibility to M/S Tina Rubber& Infrastructure Ltd. in controlling its logistic cost and material availability. • The applicant regularly has requested to add few details in all his NOC viz. <ul style="list-style-type: none"> i.
