The matter was last discussed in the 64th meeting of Expert Committee held on 17th and 18th December, 2015 subsequent to the submission of inspection report by CPCB. Based on the inspection report of CPCB, the improvements suggested (such as adequate capacity suction, bag filter, stack monitoring facility, firefighting system, grounding/foundations of machines, spacing of machines for properly workability, ventilation etc.) need to be carried out and the evidence of the same needs to be submitted to CPCB and the Ministry, subsequently the case will be considered for import.

Now the applicant has submitted the upgraded plant's photographs of the installed equipment as suggested by the CPCB.

The matter was previously deliberated upon in the 77th Meeting of the Expert Committee held on 3rd April 2017. The Committee noted that the applicant has provided zinc content of the zinc dross or zinc powder proposed to be imported. However, the content of lead and cadmium is not given, the upper limits of which is provided in the HW Rules, 2016. The Committee therefore recommended that the applicant may provide the lead and cadmium content of the Zn waste proposed to be imported.

The applicant has now submitted the aforesaid information.
