There is already an application with the Ministry and the applicant has re-applied along with the evidence of the installation.

The earlier application pertained to import of 2500 MT of used rubber tyres scrap, tubes scrap for manufacturing of reclaim rubber. The matter has been considered in the 68th Meeting of the Expert Committee held during 26th and 27th April 2016, wherein the Committee suggested for site inspection. Subsequent to the submission of site visit report by CPCB, the matter was considered in the 74th meeting of the Expert Committee held during 14th and 15th December 2016. The Committee had then considered the matter on the basis of site inspection report. The Committee noted that unit is not complying with SOP and need to implement the following:

- i. Installation of safety guards for the tyre side wall cutter and de-beading machine, strip cutter and block cutter;
- ii. Installation of acoustic enclosure for the tube cutter;
- iii. Installation of suction hoods to refiners/strainers and the same may be channelized through a common header and connected to an emission control system for better management of fugitive emissions from refining section.

The applicant should submit the evidence with regard to aforesaid suggestions for further consideration of case for import, till then the case is deferred.
